## Program Policies

*Policies are available at the Recreation Authority and on our website [rare-mi.org](http://rare-mi.org)*

**Program Payment:** Fees are due at time of registration.

**Program Registration:** A parent/guardian or grandparent must register anyone under the age of 18 years old. Special Events and Trips are an exception.

**Registration Deadline:** Sometimes programs are cancelled because patrons wait too long to register. Most programs, unless otherwise noted, will have a registration deadline of two business days prior to the program start date (example: if the program is scheduled to start on a Friday, registration deadline will be on Wednesday. Monday program start dates will have a registration deadline of the prior Thursday). Please register early to avoid disappointment.

**Late Registration Policy:** Registration may be taken after the deadline, if in fact, the program has reached their minimum and there is space available. Waiting to register until the deadline does not guarantee you a spot in the program; the program may already be full. Registrations accepted after the deadline will be assessed a \$5 late fee.

**Recreation Authority Program Cancellation:** The Recreation Authority of Roseville & Eastpointe reserves the right to cancel any class or program and a full refund will be processed. Online or Credit/Debit registration refunds will be less the additional processing fee. Classes or programs will be cancelled prior to the day of class in order to give registered participants adequate notice. However, if a class is scheduled to start on a Monday, notice will be given on the prior Friday. If a program is cancelled after a program has started, a refund will be issued based on the number of classes that are missed. If a program's time and dates are altered by the Recreation Authority after the program has started and you are no longer able to attend the program due to the change, it is the responsibility of the household to contact the Recreation Authority within seven business days (Monday-Friday) following the notification of the program change to receive a prorated refund.

**Individual Cancellations:** Should a participant need to cancel out of a class or program a \$5 processing fee will be held and a refund or credit will be issued based on time of refund request. Any refund for a class must be requested before the 2nd session of the registered class. Full refunds minus a \$5 processing fee will only be available before the second class or prior to class starting. NO REFUNDS will be given after the 2nd class has started. Online or Credit/Debit registrations will be less the processing fee paid at the time of registration on top of the department processing fee. Sports league refunds will have an additional uniform fee processed, this uniform is yours and will be available for pick up once it is sorted by the Recreation Authority Center. If any class or activity includes a uniform or materials fee, this fee will not be refunded. Refunds will not be given for special events unless it is determined by the Recreation Authority.

**Refund Return:** A refund check will be processed and mailed 3-4 weeks following the request for the refund.

Real Estate in Roseville is in a seller's market with a slightly decreasing inventory. Despite increases in interest rates and home prices, however, the market appears strong for sellers as buyer demand continues to exceed supply. Buyers, however, will in general find slightly less competition for homes which is encouraging.

Eastpointe's real estate market continues to favor sellers with rising sale prices and strong demand despite increases in interest rates and home prices. The over 25% increase in inventory does, however, mean sellers need to be more careful in their pricing. The higher inventory also is encouraging for those who want to buy.

<sup>1</sup> Days on Market (DOM) below 60 is a market that favors sellers; above 90 days is a market that favors buyers.

<sup>2</sup> The absorption Rate is the rate of home sales derived by dividing the number of sales by the inventory (number of homes at the beginning of the month plus new listings during the month). Above 18.3% is considered a seller's market. Below 15.4% is considered a buyer's market.

<sup>3</sup> In a seller's market inventory (number of homes at the beginning of the month plus new listings during the month) increases create buyer opportunity and have little if any negative impact on percent of asking price or Days on Market (DOM). Decreased inventory reduces inventory and constrains sales. The reverse is true in a buyer's market.

*Stats and Trends provided by the Grosse Pointe Board of REALTORS®. All information deemed reliable but not guaranteed and should be independently verified. Information was derived from a variety of sources including the Great Lakes Repository®.*

The information above reflects the complex nature of the real estate market. Sale prices in both markets have declined modestly, but with the average home selling for full price, there is no “discounting” of prices because of higher interest rates. In fact, it has generally been accepted that the current rate environment is likely where rates will remain for some time. The decline in the number of sales also is an indication the initial decline in sales we saw in late 2022 and into early 2023 as buyers adjusted to these higher rates. It is expected that the next report will show an increase in average sale price, although the number of sales will likely still be lower, but only because of insufficient inventory.

Days on Market, while increased for both cities, are actually of little concern, as the length of time to sell remains roughly half of what is seen in a balanced market and will have no real impact on the market. Additionally, while the absorption rate has declined in both markets; both markets continue to favor sellers, just not as much as it did last year.

Finally, with the increase in inventory in Roseville and as buyers become normalized to the current rate environment, the next report may show improvement. In Eastpointe, until inventory shows a similar uptick, it is likely sales will remain constrained.

# Macomb Food Program

## Dear Macomb County Neighbor,

Rising food costs and overall inflation has impacted all of us. For the Macomb County Food Bank and local food pantries, this has created a serious problem in trying to meet the food needs of our communities.

The Macomb Food Program is a 501c3 non-profit organization that raises funds to help support over 50 food pantries in Macomb County. These pantries help feed our communities.

Now more than ever, there are many charities seeking your attention and support. We hope you will consider the plight of our hungry neighbors in Macomb County and help us assist the local food pantries that are struggling to help those in need. The Macomb Food Program only supports hunger related programs in Macomb County.

Your donations will stay in Macomb County.

On behalf of your Macomb County neighbors in need, we thank you for your generosity.
