# Did You Know???

## "Flushable" wipes should **never** be flushed!

Aside from causing large problems with municipal sewer systems, wipes and other items also cause problems in the pipes inside your home. Clogged pipes can lead to overflowing toilets, basement sewer backups and the need to clean out the main drain. When this happens, a plumber is needed to clear the blockage. **To help avoid these problems and expenses, only flush human waste and toilet paper.**

### Here is a list of other items that should **never** be flushed:

- Personal and baby wipes
- Cotton balls and swabs
- Tampons
- Cat litter
- Sanitary products
- Prescription drugs
- Condoms
- Over-the-counter medicines
- Facial tissues
- Cigarette butts
- Paper towels
- Cooking fats, oils, or grease
- Cleaning wipes and rags
- Dental floss

### STICK TO THE 3 Ps

Only three things go in your toilet: pee, poo and (toilet) paper! If you really want to use wipes, throw them in the garbage, not your toilet.

Formerly Families Against Narcotics

## Face Addiction Now (FAN)

Face Addiction Now (FAN), formerly Families Against Narcotics, is a nonprofit organization dedicated to guiding individuals, families, and communities affected by Substance Use Disorder (SUD). FAN coordinates care, reduces stigma, and provides free programs and resources to foster healing and recovery.

FAN understands that SUD is not just an individual's disease, but a family disease. Accordingly, FAN offers Family Coaching—a program that connects families with recovery coaches who provide guidance, understanding, and practical tools to address challenges. FAN's coaches

can work individually with family members or the entire family unit to help improve communication, build resilience, and foster positive change.

Families often feel isolated and overwhelmed, but FAN Family Coaching ensures they don't face these challenges alone. Together, recovery and hope are possible.

To connect with a coach, visit [faceaddictionnow.org](http://faceaddictionnow.org) or call 833-202-4673.

## Collaborations in our Community

Susie Q's Kids has formed collaborations in our community to create and assemble our comfort bags and hygiene, sensory, and grief kits with Champions Forever's brain injury rehab patients and MISD adult autistic students to help other kids-in-need.

We continue to support Macomb and Oakland County Sheriff departments to enable deputies to have comfort bags to aid kids in trauma situations real-time.

We are collaborating with the Michigan Region of Phi Theta Kappa (28 chapters) to share our mission and engage in philanthropy and serve as Servant Leaders. We are establishing collaborations with our service partners like Lions, Rotary, Kiwanis, and Optimist Clubs offering these young Servant Leaders access to established service groups forming relationships for collaboration of knowledge and skill sharing, fundraising and service collaboration, and furthering the notion "We Are Better Together".

## True Life, Let's Grow!

Hi, this is Jennifer and Nicole from TrueLife Academy! We are a nonprofit group that services adults with developmental and physical disabilities. Our objective is to develop a day program and a residential program in Macomb County. We are also diligently saving funds with the goal of establishing a brick-and-mortar location for TrueLife Academy. This physical space will serve as the central hub for our programs and services, allowing us to better meet the needs of the community and expand our reach.

We are currently hosting Adaptive events twice a month in partnership with Chesterfield Township Parks & Recreation and Macomb Township Parks & Recreation. Over the last few months, we have held many events, including a successful Life Skills Workshop, our always popular Pizza &

Bingo Nights, Craft Nights, and Dances, just to name a few!

As TrueLife Academy embarks on this exciting journey, we are seeking support to help us spread the word and secure the necessary resources to make a meaningful impact.

As a fledgling nonprofit, we recognize the importance of building a strong foundation, and we believe that with your help, we can achieve great things. Please refer to our Facebook page for up to date information, as well as our website at [www.truelifeacademyinc.org](http://www.truelifeacademyinc.org).

# Why Now is the Right Time to Buy a Home: Mortgage Market Update

If you've been thinking about buying a home, now may be the right time to take the leap. With the mortgage market showing signs of stability and home prices stabilizing, many buyers are finding this moment offers a unique opportunity to secure long-term financial stability.

## Fixed-Rate Mortgages: A Smart Choice for Stability

As more buyers opt for fixed-rate mortgages, locking in a stable monthly payment, it's clear that this is an ideal time to take advantage of predictable loan terms. In uncertain times, a fixed-rate mortgage offers peace of mind, ensuring your payment stays the same for the life of the loan. This is especially important for buyers looking to avoid the unpredictability of adjustable-rate loans.

## Refinancing Could Work for You, Too

If you already own a home, refinancing could be a great way to lower your monthly payments or consolidate debt. With many homeowners taking advantage of refinancing, this could be the moment for you to adjust your mortgage terms to better suit your financial goals.

## The Housing Market is Stabilizing—Don't Miss Out

While home prices have slowed after a period of rapid growth, many areas still have strong demand, and inventory remains limited. This means that homes in desirable locations are still selling quickly. By acting now, you can secure a home before prices potentially rise again or available properties become even scarcer.

In short, with stable mortgage options, steady home prices, and the potential for long-term financial benefits, now is a smart time to buy. Whether you're a first-time homebuyer or looking to refinance, taking action now could help you lock in favorable terms for years to come.

The market in Chesterfield Township remains strong with continued low sales as the result of low inventory. This trend does appear to be reversing as the year-over-year figures suggest. Please note that with small amounts of data, average sale price is likely to fluctuate, noticeably, and is a less reliable indicator than Days on Market.

<sup>1</sup>The Absorption Rate is the rate of home sales taken by dividing the number of sales by the inventory. Above 18.3% is considered a seller's market.

## UNDERSTANDING THE NUMBERS

**Average Sale Price – Healthy:** As market values increase those who own homes generally will see an increase in their net worth. If that increase is too rapid however, it can eliminate the ability of those who own to move up or price would be homeowners out of the market. The increases noted are unlikely to price buyers out of the market and suggest some seasonality which we can discuss at another time.

**Number of Sales – Good:** As inventories have increased it has spurred additional sales. The demand for housing continues to be strong and household formation continues, increased inventories should further encourage additional sales.

**Days on Market (DOM) – Good:** A DOM of under 45 days still indicates a strong housing market for sellers, although for those who recall a more brisk sales pace, this may not feel that is the case. The reality is that while sales were occurring at a much faster pace, that pace was not sustainable and was not healthy for buyers looking to become first time home buyers or those looking to move into a new home.

**Inventory – Improving:** Although still unable to meet demand the increase in inventory is a good thing. The increase is also not apparently having a negative impact on values as they continue to increase.

**Absorption Rate – Stronger than desired:** At over 30% it indicates buyers remain at a disadvantage when negotiating on a well-priced home. This makes moving to a new home difficult for current homeowners as well as first time home buyers.

An absorption rate between 15.4% and 18.3% is considered a market in balance. Higher favors sellers, lower favors buyers.
